Public higher education institutions in Denmark are regulated by national legislation concerning degree structures, teacher qualifications and examinations. All programmes are accredited by national, independent accreditation agencies and the Accreditation Council.

**Higher education institutions**
Higher education is offered by five types of higher education institutions:

1. Academies of Professional Higher Education (*Erhvervsakademi*) offering professionally oriented short cycle and first cycle degree programmes.
2. University Colleges (*Professionshøjskole*) offering professionally oriented first cycle degree programmes.
4. Research universities (*Universitet*) offering first, second and third cycle degree programmes in all academic disciplines.
5. University level institutions offering first, second and third cycle degree programmes in subject fields such as architecture, design, music and fine and performing arts.

Most of the higher education institutions are regulated by the Ministry of Higher Education and Science (type 1-5). The Ministry of Culture regulates a small number of higher education institutions offering first, second and third cycle degree programmes in fine and performing arts (type 5).

*Can be obtained through a full regular bachelor’s programme (180-270 ECTS) or a top up bachelor’s programme following an Academy Profession degree.

**A few Master’s programmes are up to 180 ECTS.**

Danish higher education institutions use ECTS credits for measuring study activities. 60 ECTS correspond to one year’s full-time study.

### Qualifications framework
The qualification levels form the basis for the Danish National Qualifications Framework for Higher Education, which is certified in accordance with the overarching Bologna Framework according to the principles adopted by the European Ministers of Higher Education. Danish higher education qualifications at levels 5-8 of the Danish Qualifications Framework for Lifelong Learning (NQF) are also compatible with levels 5-8 of the European Qualifications Framework (EQF).

### Admission and progression
General access to higher education in Denmark requires an Upper Secondary School Leaving Certificate or comparable qualifications. Admission to some particular programmes requires entrance examination or submission of a portfolio of artistic work.
Completion of a short cycle degree qualifies students for admission to a first cycle programme. Holders of an Academy Profession degree can obtain a Professional Bachelor’s degree within the same field of study through a top-up programme. Completion of a first cycle degree qualifies students for admission to the second cycle.
