

CIMOn Aasia-ohjelmasta 2015 tuetut Kiina-hankkeet

CIMO Asia programme funded China projects 2015

Project title: Modern Nurse Specialists in maternity and child health	
Coordinator Savonia University of Applied Sciences Unit of Health care and social services Pirkko Kouri pirkko.kouri@savonia.fi	The project aims to improve, enlarge and update the practical skills of health care staff in hospitals in China and Finland, and the teachers and students in Savonia University of Applied Sciences by active cooperation of participating organizations. The final aim is to build a model for further education of Chinese midwives and nurses, and model for updating training of Finnish staff members. The project gives also new possibilities for staff and students to do international practical working period abroad. The need to change information and knowledge between hospitals and universities between Finland and China has an important role also in the scientific frame and gives many new possibilities for research projects in the health care field, and also support the export of Finnish knowledge and education to China in the field on maternity and family nursing care. In addition to provide an opportunity for future collaboration and debate in designing maternity and family care education that supports normal labour and birth, and healthy childhood.
Partners Children`s hospital of Fudan University Obstetrics &gynecology Hospital of Fudan University University Kuopio University hospital
