

CIMOn Aasia-ohjelmasta 2015 tuetut Intia-hankkeet

CIMO Asia programme funded India projects 2015

Project title: Finland-India Bilateral HEI Cooperation	
Coordinator University of Turku Turku School of Economics, Finland Futures Research Centre Mr. Mika Korkeakoski mika.korkeakoski@utu.fi	<p>The proposed project will focus on strengthening the sustainable energy education and futures studies curriculum and through pilot course will facilitate the improved future studies and energy education capacities of the students within the partner institution – Solapur University in India. Simultaneously, the project integrates the Futures Studies Master’s Programme in the institutional education exchange while providing the students at Turku to undertake a module on Sustainable Development provided by the teaching staff from Solapur University.</p> <p>The project aims to enhance the institutional collaboration between Finland Futures Research Centre at the University of Turku and School of Social Sciences, Solapur University in India. The key objective of the project is to pilot energy education and future studies modules and to contribute into the planning work regarding institutional exchange and education export between Finland and India. Simultaneously a study module on Sustainable Development by Solapur University is provided at the University of Turku. This project acts as a breeding ground for long term partnership that benefits researchers, teachers and students alike in both institutions, and indirectly will feed into the policy planning and strategy work in the field of energy policy and planning in India, and will contribute into sustainable development and climate change mitigation in both countries.</p>
Partners Solapur University
